

DIRECTED FIELDWORK LEARNING OUTCOMES AGREEMENT

The Learning Outcomes Agreement guides the entire fieldwork experience much like a syllabus outlines and guides a college course.

- The student and DFW host site supervisor/mentor should collaboratively complete the “DFW Learning Outcomes Agreement” (LOA) during the first week of fieldwork (or earlier); the student is to submit it via the LIS 590 course website.
- The LOA should clearly define (a) what the student wants to learn (the learning outcomes), (b) what tasks or projects the student will be performing in order to meet those outcomes, and (c) what the student will have to show as “evidence” of having completed the learning outcomes (e.g., reference log, cataloging records, web pages, database designs, etc.).
- The LOA should also reflect the iSchool’s commitment to promoting IDEAS concepts (Inclusion, Diversity, Equity, Accessibility, Sovereignty). Indicate in your learning outcomes how what you will be doing ties in with these important issues.
- Your learning outcomes must be mapped to the [MLIS program-level learning outcomes](#). Include the program-level outcome numbers in the first column under each of your DFW learning outcomes. (See the [Sample Learning Outcomes](#) document for examples)

Student Name: Alexandra Vignona
Student Email: agvignona@uw.edu
Host Site Institution: Maine Historical Society
Supervisor/Mentor Name: Hannah Moore
Supervisor/Mentor Email: hmoore@mainehistory.org
Number of LIS 590 Credits Registered for: 1
Fieldwork Start Date: July 2, 2026
Fieldwork Approximate End Date: Oct 2, 2026

Using the chart below, please indicate the following:

- **Learning Outcomes:** List and describe (in as much detail as possible) three to five primary learning outcomes for the fieldwork experience. Include the numbers of the program-level outcomes that your DFW outcomes will help you achieve.
- **Project/Task Description:** Describe the fieldwork projects or tasks (in as much detail as possible) that relate to each learning objective.
- **Evidence/Criteria for Evaluation:** For each learning objective, describe how student performance will be evaluated in terms of evidence (e.g. observation, product, report) and criteria (e.g. quality, number of hours).
- **iSchool Values:** Indicate as appropriate (i.e. either in outcomes, tasks, or evidence/criteria) how the work reflects the iSchool’s commitment to promoting inclusion, diversity, equity, accessibility, or sovereignty.

	Learning Outcomes and Program-Level Outcome mapping	Project/Task Description	Evidence/Criteria for Evaluation
1	I will develop skills in archival processing by helping organize a small archival collection and contributing to the creation or updating of a finding aid. SLO: 2,6,9	Assist with organizing and describing materials in a small archival collection, including labeling folders, updating inventories, and supporting basic arrangement and description work for finding aid.	Updated inventory lists, draft or revised finding aid sections, and supervisor confirmation of completed processing tasks and accuracy of work.
2	I will develop reference and research support skills by learning to locate, interpret, and retrieve archival materials using catalogs and finding aids to support patron requests. SLO: 1,2,7	Assist staff in responding to patron requests by locating and pulling materials using catalogs, databases, and finding aids, while also shadowing reference interactions with the research librarian.	Reference/shadowing notes, documentation of materials retrieved for patron requests, and supervisor feedback on accuracy and effectiveness of assistance.
3	I will develop professional communication skills and gain an understanding of archival workflows by participating in daily operations, staff meetings, and reference or project work. SLO: 6,7,8	Participate in daily archival work, attend staff meetings, assist with reference or project tasks as assigned, and maintain a weekly activity log documenting tasks and observations.	Weekly work log, meeting notes, supervisor feedback on communication and professionalism, and reflection on workflow understanding and professional growth.
